

CPD@SA Family Practice

Earn 100% of your required CEU's by completing the SA FAMILY PRACTICE CPD questionnaire each month.

2007 ANSWER SHEETS

CPD QUESTIONNAIRES MUST NOW BE COMPLETED ONLINE AT
www.safpj.co.za

- Simply click on the "CPD" icon below the journal masthead. You will be directed to the CPD questionnaire on the www.ecpdsa.co.za website.
- Click on the SA Family Practice Volume 49(10) Nov/Dec 2007 activity listed on the "Choose a CPD activity" page.
- You will be prompted to login on the [ecpdsa](http://www.ecpdsa.co.za) website. Click on "Register" on the top menu bar if you have not registered on [ecpdsa](http://www.ecpdsa.co.za) before, or simply Log In.
- Click on "Continue" at the bottom of the "CPD Activity" page to view the CPD questions. Complete the questions online. If successful, you will receive your CPD certificate online.
- If you experience any problems, kindly contact Léhane at Tel: (021) 975 4684, Fax: 086 500 4974, or Email: cpd@ecpdsa.co.za
- If you return the completed CPD answer sheet by fax or email your answers will be entered on the www.ecpdsa.co.za website. If successful, your CPD certificate will be available on [ecpdsa](http://www.ecpdsa.co.za), or returned to you on request.

Please note this is a FREE service to members of the SA Academy of Family Practice/Primary Care and subscribers to the journal only.

Thank you very much for your cooperation.
 The CPD Management Office

True or False		
Question 1-9: Peptic Ulcer Disease. Page 19-26		
	True	False
1. Smoking increases the risk of ulcer recurrence and slows healing.		
2. <i>H. pylori</i> is present in most patients with gastric ulcers.		
3. NSAIDs are the most common reason of peptic ulcer disease in patients without <i>H. pylori</i> infection.		
4. Cox-2 effects are gastro-protective.		
5. Peptic ulcer pain is partially relieved by taking foods.		
6. A serum ELISA test for <i>H. pylori</i> is the most sensitive test.		
7. PPIs heal most gastric and duodenal ulcers after four weeks of therapy.		
8. Serious upper GIT complications among the general population who do not take NSAIDs are relatively high.		
9. Bleeding peptic ulcers are more common than perforation.		
Question 10-17: Pet related infections: Page 27-33		
10. Acute toxoplasmosis in pregnant women can cause serious congenital infections.		
11. Lyme's disease can be treated with doxycycline, amoxicillin and cefuroxime.		
12. New born puppies cannot transmit toxocariasis.		
13. Fish tank granuloma can be treated with clarithromycin.		
14. Cat scratch-disease only occurs in children.		
15. Psittacosis commonly presents with flu-like symptoms.		
16. Leptospirosis is more commonly found in cats than in dogs.		
17. MRSA can be passed on to dogs or cats.		
Question 18-20: Somatoform disorders: Page 34-38		
18. Conversion disorder is characterised by a single unexplained symptom that involves voluntary or sensory functioning.		
19. Somatisation disorder is usually present after 30 years of age and symptoms last for a short period of time.		
20. Cognitive behavioural therapy is an effective therapy for somatoform disorders.
