

# Handbook of HIV Medicine

**Authors: Douglas Wilson, Mark Cotton, Linda-Gail Bekker, Tammy Meyers, Francois Venter, Gary Maartens**

**ISBN: 9780195761351**

**Cost: R399.95**

This is the second edition of what has become an invaluable handbook for doctors, medical students and primary health care workers. It presents an updated

approach to critical issues for quick reference in urban and rural clinics and hospital wards. The Handbook is targeted specifically at the needs of the developing world and contains guidelines on antiretroviral therapy, HIV emergencies, and adult and paediatric HIV medicine. An important new feature is a section that provides a systematic approach to HIV medicine in adults and children.

The second edition of the Handbook of HIV Medicine features:

- Thoroughly updated information to allow medical practitioners and students to keep abreast of the latest advances in HIV medicine
  - A revised chapter structure to cover an even broader scope
  - Brand new chapter on adherence and drug interactions
  - Increased coverage of ethical issues surrounding HIV
- 
- Portable guide for on-the-spot HIV/AIDS care
  - Substantial information and guidelines on antiretroviral therapy
  - More than 50 full-colour illustrations
  - More than 60 expert contributors
  - Special focus on the needs of developing countries
  - Concise overviews of important concepts in basic science and epidemiology
